

LOUISIANA STATE UNIVERSITY HEALTH SCIENCES CENTER
 Department of Molecular and Cellular Physiology
2007 Fall Seminar Series

Wednesdays

9 a.m.

Room 4-201

September 12	Yuta Abe, M.D. Department of Molecular & Cellular Physiology LSUHSC-Shreveport	Tolerance Induction in Rat Allogeneic Liver Transplantation: Role of Regulatory T-cells
September 19	Nigel Mackman, Ph.D. Departments of Immunology & Cell Biology The Scripps Research Institute	Role of Tissue Factor in Hemostasis, Thrombosis and Inflammation
September 26	Chris Kevil, Ph.D. Department of Pathology LSUHSC-Shreveport	Therapeutic Angiogenesis: Fact or Fiction
October 3	Timothy Kern, Ph.D. Clinical & Medical Endocrinology Case Western Reserve University	Identifying the Inflammatory Basis of Diabetic Retinopathy
October 10	Gary W. Reuther, Ph.D. Interdisciplinary Oncology Program H. Lee Moffitt Cancer Center	Screening for Myeloid Cell Transforming Genes
October 17	John Chidlow Department of Molecular & Cellular Physiology LSUHSC-Shreveport	Role of VEGF-A in Experimental Colitis
October 24	Karen Stokes, Ph.D. Department of Molecular & Cellular Physiology LSUHSC-Shreveport	The Inflammatory Impact of Cytomegalovirus on the Microvasculature
October 31	V. Hugh "Chip" Price, D.V.M. Department of Animal Resources LSUHSC-Shreveport	Animal Use and Research
November 7	David Adams, M.D. Institute for Biomedical Research University of Birmingham – School of Medicine	Extra-Intestinal Manifestations of Inflammatory Bowel Disease
November 14	No Seminar	
November 21	No Seminar	
November 28	Peter Kvietys, Ph.D. Department of Medicine, Physiology & Biophysics Lawson Health Research Institute	The Real "Poop" on PMN Transendothelial Migration
December 5	Natalia Nieto, Ph.D. Medicine/Liver Diseases Mount Sinai School of Medicine – New York	Crosstalk Between Liver Cells and Fibrogenic Response
December 12	Hideo Yoshida, Ph.D. Department of Molecular and Cellular Physiology LSUHSC-S	Thrombosis and Intestinal Inflammation
December 19	Tomas Welbourne, Ph.D. Department of Molecular & Cellular Physiology LSUHSC-Shreveport	ROS Roles in Acid-Base Homeostasis: Studies in Kidney vs Breast Cancer Cells
