

LOUISIANA STATE UNIVERSITY HEALTH SCIENCES CENTER
 Department of Molecular and Cellular Physiology
2008 Fall Seminar Series

Wednesdays

9 a.m.

Room 4-201

September 10	Dale Ramsden, Ph.D. Department of Biochemistry & Biophysics University of North Carolina at Chapel Hill	Getting In Touch With Your Hidden Enzyme, the Ku Heterodimer
September 17	Steven P. Jones, Ph.D. Department of Medicine - Division of Cardiology University of Louisville School of Medicine	The Hexosamine Biosynthetic Pathway and Cardiovascular Disease
September 24	Qian-Jin Zhang, Ph.D. Department of Cellular Biology & Anatomy LSUHSC-Shreveport	Direct Priming by Tumor and Cross-Priming by Dendritic Cells Enhances Antitumor Immune Response – Role of MHC-1, TAP and B7.1 Expression in Tumor Cells
October 1	Jefferson C. Frisbee, Ph.D. Center for Interdisciplinary Research in Cardiovascular Sciences West Virginia University School of Medicine	Microvascular Rarefaction in the Metabolic Syndrome
October 8	Mutsumi Nagai, M.D., Ph.D. Department of Molecular and Cellular Physiology LSUHSC-Shreveport	Pathophysiology of Cerebral Venous Sinus Thrombosis
October 15	Marlyn Langford, Ph.D. Department of Ophthalmology LSUHSC-Shreveport	Apoptosis Induced By Bacterial Cell Wall: Role In Bacterial Disease?
October 22	Eric First, Ph.D. Department of Biochemistry & Molecular Biology LSUHSC-Shreveport	Charcot-Marie-Tooth Disorder and Protein Synthesis: What's the Connection
October 29	Guohong Li, M.D., Ph.D. Department of Neurosurgery LSU Health Sciences Center - Shreveport	Periostin and Integrin Signaling in Vascular Disease
November 5	Gyongi Szabo, M.D., Ph.D. Department of Immunology & Virology University of Massachusetts Medical School	Hepatitis C Virus-Induced Alterations in Innate Immunity
November 12	Paul Kubes, Ph.D. Department of Physiology & Biophysics and Medicine The University of Calgary	Innate Immune Responses to Bacterial Infections
November 19	Xuepei Huang, M.D., Ph.D. Department of Biomedical Sciences Florida Atlantic University	Troponin I Deficiency and Mutation Caused Diastolic Dysfunction
November 26	No Seminar	
December 3	Julian A. Guttman, Ph.D. Department of Biological Sciences Simon Fraser University	Strategies Attaching and Effacing Bacterial Pathogens Used to Generate Diarrheal Disease in Their Hosts
December 10	Jeffrey Kiel, Ph.D. Department of Ophthalmology University of Texas Health Sciences Center - San Antonio	An Introduction to Ocular Blood Flow and Intraocular Pressure
