

Louisiana State University Health Sciences Center
Department of Molecular and Cellular Physiology
2018 Fall Seminar Series

Seminars begin at 9:00 am in Room 4-201 (Physiology Conference Room)

January 16	Minsup Lee, Ph.D. Postdoctoral Fellow Department of Molecular & Cellular Physiology LSUHSC - Shreveport	VEGF and PECAM-1 in ocular diseases
January 30	Mabruka Alfaidi, Ph.D. Postdoctoral Fellow Department of Pathology LSUHSC - Shreveport	The differential effects of the Nck adaptor proteins on Shear stress-induced atherogenic endothelial activation
February 13	Gopi K. Kolluro, Ph.D. Research Assistant Professor Department of Pathology LSUHSC - Shreveport	CSE/H2S Regulation Of Vascular Remodeling
February 27	Xiuping Yu, Ph.D. Assistant Professor Department of Biochemistry & Molecular Biology LSUHSC - Shreveport	Wnt/beta-Catenin signaling in prostate cancer
March 13	Lih Kuo, Ph.D. Professor & Associate Department Head - Temple Campus Director, Ophthalmic Vascular Research Program Texas A&M University College of Medicine	Regulation of Coronary and Ocular Circulations: Physiology and Pathophysiology
March 27	Xinggui Shen, Ph.D. Assistant Professor Department of Pathology LSUHSC - Shreveport	LC-MS analysis of hypoxia-induced endothelial dysfunction
April 17	Lynn Harrison, Ph.D. Professor Department of Molecular & Cellular Physiology LSUHSC - Shreveport	TBA
May 1	Arriago De Benedetti, Ph.D. Professor Department of Biochemistry & Molecular Biology LSUHSC - Shreveport	Targeting the TLK1/NEK1 DDR axis with Thioridazine suppresses outgrowth of Androgen Independent Prostate tumors
May 15	No Seminar	
May 29	Christopher Schmoutz, Ph.D. Assistant Professor Department of Pharmacology, Toxicology & Neuroscience LSUHSC - Shreveport	Swimming upstream: developing operant conditioning devices for zebrafish
